Solutions For All Your Sawing Needs

Model 2013-V3

Model 3613-1

20" & 36" VERTICAL CONTOUR SAWS

For a variety of applications

- Fixed and hydraulic table models available
- Band width capacities from 1/16" to 1"
- Table tilts 45° right, 10° left for increased cutting versatility
- All models feature variable band speeds
- Unitized frame is made from arc-welded steel

Vertical contour saws are among the most versatile sawing machines on the market today. They are widely used in machine shops, mold shops, maintenance departments, schools and in other areas where cutting a wide variety of materials is required. Machines are available in sizes to fit your needs and feature band speeds that permit contouring, cut-off, and machining of almost any material.

The wide variety of available accessories have been engineered to extend the machines' versatility and productivity even further. They provide close tolerance machining and reliable operation, extend operating life and reduce machining time.

Vertical Contour Saws...the most versatile general purpose sawing machines!

- Fixed and hydraulic tables
- 20" and 36" throats
- Table tilts for angle cutting
- Variable band speeds
- Use 1/16" to 1" saw bands

American-made DoALL vertical contour saws are used daily for contour sawing, miter cutting, or rip sawing a wide variety of materials including ferrous and non-ferrous metals, wood, plastic, glass, rubber, foam and other low density materials.

They are designed for easy maintenance and service and are fabricated from heavy gage steel with precision weldments for reduced vibration and increased accuracy. Combined with the many built-in safety features and convenient operator controls, these machines are the best choice for the widest variety of sawing applications.

Call 1-800-362-5572 for more information or the name of your nearest DoALL Sawing Products distributor.

Ideal for....

- Tool Rooms
- School Shops
- Machine Shops
- Maintenance Departments
- and many more applications

20" & 36" fixed table machines

20" & 30" hydraulic table machines

Note: some photos may show optional equipment

Optional Accessories

Miter attachment

Protractor workstop

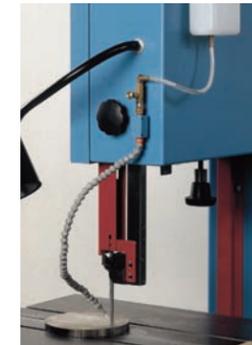

Rip fence

Work jaws

Band lubricator

Mist coolant

Disk cutting attachment

Air power feed

Blade welder

Worklight

Magnifying attachment

Glide table

Chip blower

Dust spout

Secondary table

18" hydraulic stroke table

Inserts and guide blocks

Post elevating handwheel

Extended workheight
