

MODEL MSL2-660 MULTI STAGE SCISSORS LIFT

10 Year/250,000 Cycle Warranty

The MSL Series lifts were designed for the higher travel applications that require shorter platform lengths than would be available with a single scissor design. The lighter capacity units are built with solid steel legs for more compact design and greater cost savings, while the higher capacity units are built with structural tubing legs for greater rigidity, lighter weight and optimum cost savings.
