

# Paint Mixing Rooms

**MixMaster**

Ameri-Cure Paint Mixing Rooms are designed to create the ideal environment for storing, mixing, and matching paint - paying particular attention to compatibility of Fillon Technologies Mixing System.

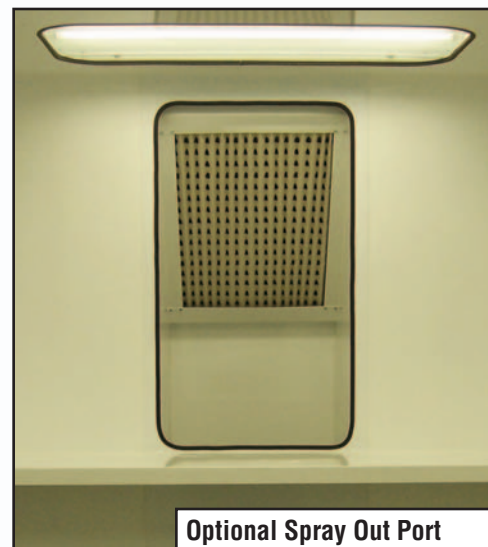

# Paint Mixing Rooms

## MixMaster

Ameri-Cure Paint Mixing Rooms are designed to create the ideal environment for storing, mixing, and matching paint - paying particular attention to compatibility of Fillon Technologies Mixing System. Constructed from 18 gauge galvanized and zinc coated steel panels, prefabricated and powder coated a "porcelain like" bright white. Comes complete with 3 lights overhead, the convenience of an included shelf, and the best airflow around! A popular available optional is our Color Corrected Fluorescent lighting with 98% CRI rating (almost like true daylight) allows the greatest ease of color matching no matter what your color system is. Custom sizes are also available as well as mini—spray walls, just call us for details.

Optional Spray Out Port
