

Atlas Copco Portable air compressors

XAS 300 and XATS 250

New, modern design

- Galvanneal enclosure to prevent rust
- Central point drains for quick serviceability
- Curbside control panel for ease of use
- Protective shutdown system to prevent damage
- Single-side serviceability for easy maintenance

Atlas Copco

This compressor is designed for cross mounting on service vehicles used for maintenance, road striping, and related activities. For easy mounting and dismounting from the carrier, the XAS 300 and XATS 250 feature two sets of forklift slots, one on each end, as well as a lifting bail.

- The most efficient air end in the compressor industry
- Easy access to filters and the oil separator tank
- Guaranteed CFM
- Tier III electronic engine
- Compact design
- Control panel next to discharge valves for ease of use
- Large service doors

Danger: Compressed air should never be supplied as breathing air unless air is properly purified for breathing. Atlas Copco assumes no responsibility or liability related to the purchaser's/user's breathing air system.

Technical Specifications

Model Compressor	XAS 300 JDU7	XATS 250 JDU7
Normal effective working pressure	100 PSI	150 PSI
Maximum unloading working pressure	125 PSI	175 PSI
Actual free air delivery	300 CFM	250 CFM
Cooling system (Air/Oil)	Air / oil	Air / oil
Oil capacity	4.5 gallons	4.5 gallons

Engine/John Deere	
Model number	4024HF285 Tier III
Cooling system	Ethylene glycol mix w/SCA
Number of cylinders	4
Capacity of oil sump (approx)	8 quarts
Capacity of fuel tank	25 gallons
Speed-maximum loaded	2600 RPM
Speed-unloaded	1700 RPM
Horsepower	80 HP

Unit Dimensions	
Overall length	84 in.
Overall height	55 in.
Overall width	34 in.
Weight dry	2,190 lbs.
Weight wet	2,400 lbs.
