

Quality Innovation Reliability Experience

SHORT BAR LOADER CE

MODEL	V-65E	V-65LE
BAR DIAMETER	$\varnothing \frac{13}{64} \sim \varnothing 2 \frac{9}{16}$	
BAR CAPACITY	$\varnothing 2 \frac{9}{16}$ / 10 pcs	
BAR LENGTH	MAX 48"	MAX 60"
MACHINE WEIGHT	750lbs	795lbs
AIR PRESSURE	6 kg / cm ² 85 psi	
POWER SUPPLY	220V / 440V	
PUSHER SIZES	$\frac{15}{64} \sim \frac{1}{2} \sim \frac{3}{4}$	

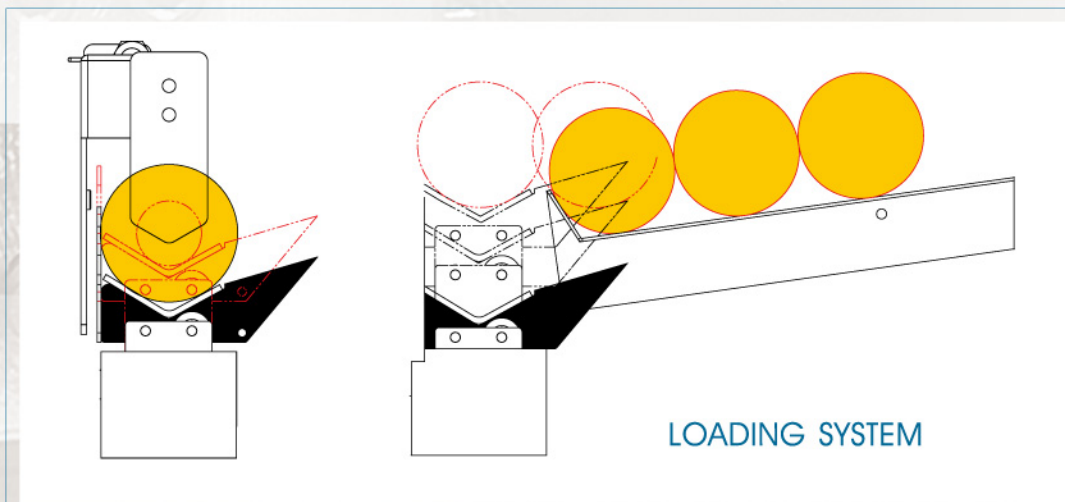

V-65E / V-65LE

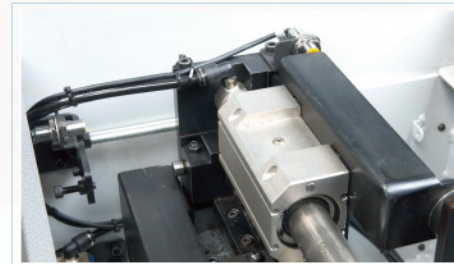

SHORT BAR LOADER

Features & Benefits

- ❖ Magazine for unmanned operation
- ❖ Fast and smooth bar loading cycle for trouble free manufacturing
- ❖ No vibrations for precision machining at high rpm
- ❖ X-axis sliding rail system reduces time needed for spindle liner changes
- ❖ Pusher cylinder combined with linear guide offer smooth pushing motion
- ❖ Easy V channel adjustment for quick bar size and diameter changes
- ❖ Remote control for operator convenience
- ❖ External LED display for quick easy monitoring of bar position and length

Pusher cylinder with linear guide.

New design pusher lock, trouble free.

V channel adjustment.

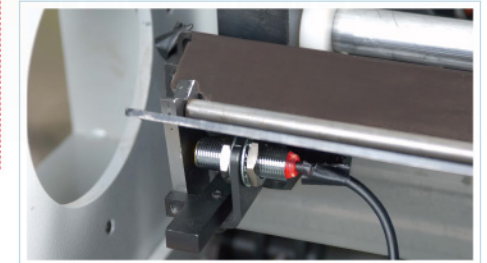

Hand held remote control .

X-axis sliding rail system.

Fully-functional PLC control combined with comprehensive data bank software.

Top-cut system senses new bar position.
