

Stenhøj Micro 20 & 26 LH-A

Stenhøj Micro 20 & 26 LH-A

Fully automatic air-hydraulic scissor jacks

STENHØJ's scissor jack program for usage on the Major 4000-5000 series comprises air hydraulic jacks.

Micro 20 & 26 LH-A are operated individually by means of joysticks, hereby avoiding poor ergonomical working conditions and time-consuming procedures.

The scissor jacks are equipped with a remote control, which can be fitted by the control box for the platform lift.

The Micro 20 & 26 LH-A scissor jacks are available with either 2 or 2.6 t capacity.

Delivery includes 3 sets of extensions (10/40/85 mm), and a rubberpad.

Contraction of the arms to the starting position is activated via the remote control.

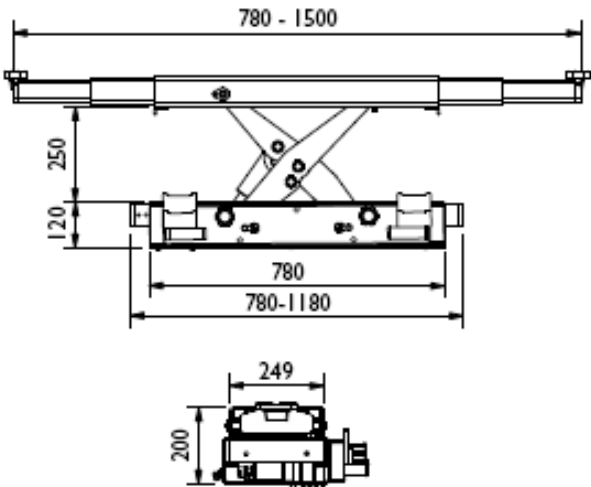

Optional extras:
Air connection kit, and various sets of pads.
