

Stenhøj Micro 40

Stenhøj Micro 40

Air-hydraulic scissor jacks

STENHØJ's scissor jack program for usage on Major 6230 and 7230 lifts comprises air hydraulic jacks.

Micro 40 is ideal for lifting heavy vehicles. The scissor jack has a flexible range, because of the adjustable lifting points (up to 1500 mm).

As always safety is top priority. Micro 40 is equipped with 2-hand operation with dead-man control, mechanical stop as well as pressure relief valve for maximum safety.

Optional extras:
Air connection kit and
various sets of pads.
