

10-27 Mini Shear

Sweed Mini-Shear

The Sweed 10-27 Mini-Shear is designed to fulfill the need for a small portable trimming and clearing shear. The Sweed Mini-Shear can be used for trimming fittings off copper tubing, cutting reinforcing steel to length, cutting up production rejects—to name a few uses. The Mini-Shear is manufactured from mild steel throughout with the jaw opening to 3 1/2" at the tips. The machine features an easily adjustable blade and all brushes and pins are fitted with grease points. This unit also features a remote foot control unit and incorporate a safety interlock which opens the jaw at any point in the cycle immediately when the foot is removed from the pedal.

PERFORMANCE DATA

- Max Operating Pressure 3000 psi
- Power 3 HP 3 HP
- Blade Length 10"
- Top Blade Straight
- Bottom Blade Notched
- Shearing Capacity 27 Ton
- Shear Force 3/4" Dia Mild
- Shipping Weight 450 lbs.
- Stock Feed Height 44"
- Large Hydraulic Reservoir 6 3/4 Gallons

STANDARD ELECTRICAL OPTIONS

- 1-Phase - 220 volt - 60 Hz - 17 Amps
- 3-Phase - 240 volt - 60 Hz - 9.6 Amps
- 3-Phase - 480 volt - 60 Hz - 4.8 Amps

CONSTRUCTION FEATURES

- Fork Pockets for Ease of Mobility
- Heavy Duty Footswitch
- Spillway
- Right-hand or Left-hand Feed
