Eagle Magnum Mixers are designed to rapidly blend dry, free flowing materials.

8384 W. Peck Road  
Greenville MI, 48838

[eaglegroup ltd.com](http://eaglegroup ltd.com)

Eagle Magnum Mixers are fast, economical batch mixers capable of mixing 10,000 to 100,000 pound batches. A large intake hopper accepts 1,000 pounds of material at one time. The internal vertical mixing auger rapidly draws the material into its tube and effortlessly disperses the material at the top of the mixer. The simplicity of the mixing concept explains the years of dependable service experienced with every rapid mix model. Shipped assembled with controls for easy installation.

### Eagle Load Ring™

**Inventory Management System**  
Accurate measurement of materials mixed in Magnum Blenders.
