High Capacity **Live Bottom Bin**

The High Capacity Live Bottom Bin is designed to deliver sluggish powders flakes and other hard-to-move materials in high volume to your process equipment. It can be used as a dump station or as a surge hopper. The High Capacity Live Bottom is available with a 6" screw capable of delivering up to 200 cu.ft. of material per hour or a 9" screw that can deliver up to 600 cu. ft. per hour. Let Ensign Equipment Inc. custom design a system to suit your needs!
