M-Series Tube Mills

Since its development 70 years ago, Yoder M-Style Tube Mills have been a popular choice for the tube and pipe industry. Even today, whether it is a service center or OEM looking to manufacture tube, the M-Style mills offer an efficient, compact design to meet your needs; productivity and dependability. Yoder machines, assembles, and tests the M-Style Mills in Cleveland, Ohio and continues to use castings manufactured locally in the United States.

With so many, M-Style tube mills in the field, parts and service support is no problem, with most *parts in stock* and available for quick delivery. Additionally, the rafted M-Style mills offer the *fastest changeover* in the industry.

Model	Tube OD Range	Tube Wall Range
M-1½	0.312" to 1.250"	0.020" to 0.050"
M-2	0.500" to 2.500"	0.025" to 0.094"
M-2½	0.500" to 3.000"	0.028" to 0.134"
M-3	0.750" to 4.000"	0.042" to 0.165"
MS-3	0.750" to 4.250"	0.042" to 0.134"

NOTE:

Capacities are based on running 45,000 psi yield strength maximum materials.

Mill Configuration & Options

- Welding: High-Frequency, ERW, Laser, MIG/TIG
- Forming: Sizing, Reshaping or Cold Reducing
- Cutting: Single-Cut, Double-Cut or Saw Options
- High-Speed Operation - up to 600 FPM
- Rafted and Non-Rafted Designs
- Conventional or Cantilevered Tooling Setup
- Custom Configurations Available
